

**CLAIMS**

What is claimed is:

1. An article of manufacture comprising a vehicle surface care composition in sheet form.
- 5 2. The article of claim 1 wherein the sheet comprises a water soluble substrate.
3. The article of claim 2 wherein the surface care composition comprises at least one of a cleanser, surfactant, shine promotion agent, and protective agent.
4. The article of claim 3 wherein the surface care composition comprises an automotive cleanser.
- 10 5. The article of claim 2 wherein the sheet has a side with a surface area between 10 and 200 cm<sup>2</sup>, inclusive.
6. The article of claim 2 wherein the surface care composition is deposited onto a surface of the water soluble substrate.
7. The article of claim 2 wherein the surface care composition is impregnated into the  
15 water soluble substrate.
8. The article of claim 2 wherein the surface care composition is in a spray dried, freeze-dried, concentrated, or powdered form.
9. The article of claim 2 wherein the sheet is colored, or has printing upon at least one of its surfaces.
- 20 10. An automotive care product containing the sheet of claim 2, and instructions for dissolving the sheet in water prior to use.
11. An automotive care product containing a plurality of sheets according to claim 2, bound together to form a booklet.
- 25 12. An automotive care product containing a plurality of sheets according to claim 2, with perforation between at least two of the sheets.

13. A method of preparing a vehicle surface care composition for use, comprising:  
placing a quantity of water in a container;  
selecting a sheet according to claim 2;  
placing the sheet into the water; and  
5 waiting for the sheet to dissolve.
14. The method of claim 15 wherein the surface care composition comprises a cleanser,  
and further comprising using the water into which the sheet has dissolved to wash the  
vehicle.
- 10 15. A method of marketing a vehicle surface care composition, comprising:  
providing the surface care composition in a product have a sheet form; and  
referencing a benefit of having the product in sheet form.

**AMENDED CLAIMS**

[received by the International Bureau on 04 August 2004 (04.08.2004);  
Original claims 1, 3-12 amended; original claim 2 cancelled;  
remaining claims unchanged (2 pages)]

1. An article of manufacture comprising a vehicle surface care composition in sheet form, wherein the sheet comprises a water soluble substrate.
3. The article of claim 1 wherein the surface care composition comprises at least one of a cleanser, surfactant, shine promotion agent, and protective agent.
4. The article of claim 1 wherein the surface care composition comprises an automotive cleanser.
5. The article of claim 1 wherein the sheet has a side with a surface area between 10 and 200 cm<sup>2</sup>, inclusive.
6. The article of claim 1 wherein the surface care composition is deposited onto a surface of the water soluble substrate.
7. The article of claim 1 wherein the surface care composition is impregnated into the water soluble substrate.
8. The article of claim 1 wherein the surface care composition is in a spray dried, freeze-dried, concentrated, or powdered form.
9. The article of claim 1 wherein the sheet is colored, or has printing upon at least one of its surfaces.
10. An automotive care product containing the sheet of claim 1, and instructions for dissolving the sheet in water prior to use.
11. An automotive care product containing a plurality of sheets according to claim 1, bound together to form a booklet.
12. An automotive care product containing a plurality of sheets according to claim 1, with perforation between at least two of the sheets.

AMENDED SHEET (ARTICLE 19)

13. A method of preparing a vehicle surface care composition for use, comprising:  
placing a quantity of water in a container;  
selecting a sheet according to claim 2;  
placing the sheet into the water; and  
waiting for the sheet to dissolve.
14. The method of claim 15 wherein the surface care composition comprises a cleanser,  
and further comprising using the water into which the sheet has dissolved to wash the  
vehicle.
15. A method of marketing a vehicle surface care composition, comprising:  
providing the surface care composition in a product have a sheet form; and  
referencing a benefit of having the product in sheet form.
